

Accreditation Quality Report

Welcome to the Joint Commission's Quality Report. We know how important reliable information is to you and your family when making health care decisions. This Quality Report will help you make the right decisions to meet your needs. Since 1951, the Joint Commission has been the national leader in setting standards for health care organizations. When a health care organization seeks accreditation, it demonstrates commitment to giving safe, high quality health care and to continually working to improve that care.

The Quality Report is only one way to determine whether a health care organization can meet your needs. Discuss this report with your doctor or with other professional acquaintances before making a care decision. In addition to the accreditation status of the organization, the Quality Report uses checks, pluses, and minuses in each of the following key areas to help you compare a health care organization with similar accredited organizations.

- National Patient Safety Goals safety guidelines that target the prevention of medical errors such as surgery on the wrong side of the body and safe medication use.
- National Quality Improvement Goals measures the care of patients with specific conditions such as heart failure or pregnancy.

Not all measures are relevant to or available for all types of health care organizations. The Joint Commission will add relevant measures of health care quality as more measures become available. Your comments are just as important to us. The content and format of the Quality Report will be updated from time to time based on changes in the health care industry and your suggestions. Please call Customer Service at 630-792-5800 or e-mail the Joint Commission at qualityreport@jointcommission.org with your comments and suggestions.

Footnote Key

- 1. The Measure or Measure Set was not reported.
- 2. The Measure Set does not have an overall result.
- **3.** The number of patients is not enough for comparison purposes.
- 4. The measure meets the Privacy Disclosure Threshold rule.
- 5. The organization scored above 90% but was below most other organizations.
- 6. The Measure results are not statistically valid.
- 7. The Measure results are based on a sample of patients.
- 8. The number of months with Measure data is below the reporting requirement.
- 9. The measure results are temporarily suppressed pending resubmission of updated data.
 10. Test Measure: a measure being
- evaluated for reliability of the individual data elements or awaiting National Quality Forum Endorsement.
- 11. There were no eligible patients that met the denominator criteria.

National Quality Improvement Goals

Reporting Period: April 2020 - March 2021

		Compared to other Joint Commission		
		Accredited Organizations		
Measure Area	Explanation	Nationwide	Statewide	
Perinatal Care	This category of evidenced based measures assesses the care of mothers and newborns.	№ ²	2 C	

		Compared to other Joint Commission Accredited Organizations			on			
		Nationwide				Statewide		
Measure	Explanation	Hospital Results	Top 10% Scored at Least:	Average Rate:	Top 10% Scored at Least:	Averag Rate:		
Cesarean Birth	This measure reports the number of first-time moms with a full-term, single baby in a head-down position who delivered the baby by cesarean section.	(16%	25%	16%	23%		
Elective Delivery	This measure reports the overall number of mothers who had elective vaginal deliveries or elective cesarean sections at equal to and greater than 37 weeks gestation to less than 39 weeks gestation. An elective delivery is the delivery of a newborn(s) when the mother was not in active labor or presented with spontaneous ruptured membranes prior to medical induction and/or cesarean section.	3% of 134 eligible Patients	0%	2%	0%	2%		
Exclusive Breast Milk Feeding	This measure reports the overall number of newborns who are exclusively breast milk fed during the newborns entire hospitalization. Exclusive breast milk feeding is when a newborn receives only breast milk and no other liquids or solids except for drops or syrups consisting of vitamins, minerals, or medicines.	69% of 1082 eligible Patients	71%	50%	80%	62%		
Unexpected Complications in Term Newborns per 1000 livebirths - Moderate Rate	The moderate rate equals the number of patients with moderate complications.	950% of 1999 eligible Patients	212%	1780%	0%	1421%		
Unexpected Complications in Term Newborns per 1000 livebirths - Overall Rate	This measure looks at the number of full-term single babies with a normal birth weight and with no preexisting conditions, these are babies that are expected to do well and routinely go home with the mother.	1250% of 1999 eligible Patients	1508%	3084%	1258%	2777%
