

# Accreditation Quality Report

Welcome to the Joint Commission's Quality Report. We know how important reliable information is to you and your family when making health care decisions. This Quality Report will help you make the right decisions to meet your needs. Since 1951, Joint Commission has been the national leader in setting standards for health care organizations. When a health care organization seeks accreditation, it demonstrates commitment to giving safe, high quality health care and to continually working to improve that care.

The Quality Report is only one way to determine whether a health care organization can meet your needs. Discuss this report with your doctor or with other professional acquaintances before making a care decision. In addition to the accreditation status of the organization, the Quality Report uses checks, pluses, and minuses in the key area of National Patient Safety Goals - safety guidelines that target the prevention of medical errors such as surgery on the wrong side of the body and safe medication use.

Not all measures are relevant to or available for all types of health care organizations. The Joint Commission will add relevant measures of health care quality as more measures become available. Your comments are just as important to us. The content and format of the Quality Report will be updated from time to time based on changes in the health care industry and your suggestions. Please call Customer Service at 630-792-5800 or e-mail the Joint Commission at [qualityreport@jointcommission.org](mailto:qualityreport@jointcommission.org) with your comments and suggestions.

## Summary of Quality Information

### Symbol Key

-  The organization has met the National Patient Safety Goal.
-  The organization has not met the National Patient Safety Goal.
-  The Goal is not applicable for this organization.

For further information and explanation of the Quality Report contents, refer to the "Quality Report User Guide."

Accreditation Programs	Accreditation Decision	Effective Date	Last Full Survey Date	Last On-Site Survey Date
 Behavioral Health Care and Human Services	Preliminary Denial of Accreditation	10/21/2023	10/20/2023	10/20/2023

### The following standard(s) were found to be out of compliance:

- Entries in the clinical/case record are authenticated.
- For organizations providing food services: The organization has a process for preparing and/or distributing food and nutrition products.
- Qualified staff receive and record verbal orders. Note: Verbal orders may include medication, laboratory tests, dietary, or restraint and seclusion.
- Reduce the risk for suicide.
- Staff performing waived tests are competent.
- The clinical/case record contains information that reflects the care, treatment, or services provided to the individual served.
- The organization assesses the outcomes of care, treatment, or services provided to the individual served.
- The organization coordinates the care, treatment, or services provided to an individual served as part of the plan for care, treatment, or services and in a manner consistent with the organization's scope of care, treatment, or services. (For more information, refer to Standard CTS.03.01.07.)
- The organization determines how staff function within the organization.
- The organization develops written job descriptions.
- The organization establishes and maintains a safe, functional environment.
- The organization facilitates staff receiving the influenza vaccination. Note: This standard is not applicable to staff providing care, treatment, or services off site through telephone consultation or technology-based services.
- The organization has a plan for care, treatment, or services that reflects the assessed needs, strengths, preferences, and goals of the individual served.
- The organization has policies and procedures that guide and support care, treatment, or services.
- The organization implements its infection prevention and control plan.
- The organization safely manages emergency medications and supplies.
- The organization safely stores medications. Note: This standard is applicable only to organizations that store medications at their sites.
