

Accreditation Quality Report

Welcome to the Joint Commission's Quality Report. We know how important reliable information is to you and your family when making health care decisions. This Quality Report will help you make the right decisions to meet your needs. Since 1951, Joint Commission has been the national leader in setting standards for health care organizations. When a health care organization seeks accreditation, it demonstrates commitment to giving safe, high quality health care and to continually working to improve that care.

The Quality Report is only one way to determine whether a health care organization can meet your needs. Discuss this report with your doctor or with other professional acquaintances before making a care decision. In addition to the accreditation status of the organization, the Quality Report uses checks, pluses, and minuses in the key area of National Patient Safety Goals - safety guidelines that target the prevention of medical errors such as surgery on the wrong side of the body and safe medication use.

Not all measures are relevant to or available for all types of health care organizations. The Joint Commission will add relevant measures of health care quality as more measures become available. Your comments are just as important to us. The content and format of the Quality Report will be updated from time to time based on changes in the health care industry and your suggestions. Please call Customer Service at 630-792-5800 or e-mail the Joint Commission at qualityreport@jointcommission.org with your comments and suggestions.

Mark R. Chassin, MD, MPP, MPH
President of the Joint Commission

Summary of Quality Information

Symbol Key

-  The organization has met the National Patient Safety Goal.
-  The organization has not met the National Patient Safety Goal.
-  The Goal is not applicable for this organization.

Accreditation Programs	Accreditation Decision	Effective Date	Last Full Survey Date	Last On-Site Survey Date
 Ambulatory Care	Accredited	2/28/2018	11/10/2017	9/11/2018

Certified Programs	Certification Decision	Effective Date	Last Full Review Date	Last On-Site Review Date
 Primary Care Medical Home - Ambulatory Care	Primary Care Medical Home	3/1/2018	11/10/2017	9/11/2018

The following standard(s) were found to be out of compliance:

- Medication orders are clear and accurate.
- Medications are labeled. Note: This standard is applicable to all organizations that prepare and administer medications.
- Staff and licensed independent practitioners performing waived tests are competent.
- Staff are competent to perform their responsibilities.
- The organization effectively manages its programs, services, or sites.
- The organization identifies risks for acquiring and transmitting infections.
- The organization implements infection prevention and control activities.
- The organization inspects, tests, and maintains emergency power systems. Note: This standard does not require organizations to have the types of emergency power equipment discussed below. However, if these types of equipment exist within the building, then the following maintenance, testing, and inspection requirements apply.
- The organization performs quality control checks for waived testing on each procedure. Note: Internal quality controls may include electronic, liquid, or control zone. External quality controls may include electronic or liquid.
- The organization reduces the risk of infections associated with medical equipment, devices, and supplies.
- The organization safely manages emergency medications.
- The organization safely manages high-alert and hazardous medications.
- Existence at time of survey of a condition, which in the Joint Commission's view, poses a threat to patients or other individuals served.
