

Accreditation Quality Report

Welcome to the Joint Commission's Quality Report. We know how important reliable information is to you and your family when making health care decisions. This Quality Report will help you make the right decisions to meet your needs. Since 1951, the Joint Commission has been the national leader in setting standards for health care organizations. When a health care organization seeks accreditation, it demonstrates commitment to giving safe, high quality health care and to continually working to improve that care.

The Quality Report is only one way to determine whether a health care organization can meet your needs. Discuss this report with your doctor or with other professional acquaintances before making a care decision. In addition to the accreditation status of the organization, the Quality Report uses checks, pluses, and minuses in each of the following key areas to help you compare a health care organization with similar accredited organizations.

- National Patient Safety Goals - safety guidelines that target the prevention of medical errors such as surgery on the wrong side of the body and safe medication use.
- National Quality Improvement Goals - measures the care of patients with specific conditions such as heart failure or pregnancy.

Not all measures are relevant to or available for all types of health care organizations. The Joint Commission will add relevant measures of health care quality as more measures become available. Your comments are just as important to us. The content and format of the Quality Report will be updated from time to time based on changes in the health care industry and your suggestions. Please call Customer Service at 630-792-5800 or e-mail the Joint Commission at qualityreport@jointcommission.org with your comments and suggestions.

Summary of Quality Information

Symbol Key

- This organization achieved the best possible results.
- This organization's performance is above the target range/value.
- This organization's performance is similar to the target range/value.
- This organization's performance is below the target range/value.
- This Measure is not applicable for this organization.
- Not displayed

Footnote Key

1. The Measure or Measure Set was not reported.
2. The Measure Set does not have an overall result.
3. The number of patients is not enough for comparison purposes.
4. The measure meets the Privacy Disclosure Threshold rule.
5. The organization scored above 90% but was below most other organizations.
6. The Measure results are not statistically valid.
7. The Measure results are based on a sample of patients.
8. The number of months with Measure data is below the reporting requirement.
9. The measure results are temporarily suppressed pending resubmission of updated data.
10. Test Measure: a measure being evaluated for reliability of the individual data elements or awaiting National Quality Forum Endorsement.
11. There were no eligible patients that met the denominator criteria.

For further information and explanation of the Quality Report contents, refer to the "Quality Report User Guide."

2016 National Patient Safety Goals

Symbol Key

-  The organization has met the National Patient Safety Goal.
-  The organization has not met the National Patient Safety Goal.
-  The Goal is not applicable for this organization.

Home Care

| Safety Goals | Organizations Should | Implemented |
|--|---|---|
| Improve the accuracy of patient identification. | Use of Two Patient Identifiers |  |
| Improve the safety of using medications. | Reconciling Medication Information |  |
| Reduce the risk of health care-associated infections. | Meeting Hand Hygiene Guidelines |  |
| Reduce the risk of patient harm resulting from falls. | Implementing a Fall Reduction Program |  |
| The organization identifies safety risks inherent in its patient population. | Identifying Risks Associated with Home Oxygen |  |

For further information and explanation of the Quality Report contents, refer to the "Quality Report User Guide."

2021 National Patient Safety Goals

Symbol Key

-  The organization has met the National Patient Safety Goal.
-  The organization has not met the National Patient Safety Goal.
-  The Goal is not applicable for this organization.

For further information and explanation of the Quality Report contents, refer to the "Quality Report User Guide."

Hospital

| Safety Goals | Organizations Should | Implemented |
|--|---|---|
| Improve the accuracy of patient identification. | Use of Two Patient Identifiers |  |
| Improve the effectiveness of communication among caregivers. | Timely Reporting of Critical Tests and Critical Results |  |
| Improve the safety of using medications. | Labeling Medications |  |
| | Reducing Harm from Anticoagulation Therapy |  |
| | Reconciling Medication Information |  |
| Reduce the harm associated with clinical alarm systems. | Use Alarms Safely on Medical Equipment |  |
| Reduce the risk of health care-associated infections. | Meeting Hand Hygiene Guidelines |  |
| The organization identifies safety risks inherent in its patient population. | Identifying Individuals at Risk for Suicide |  |
| Universal Protocol | Conducting a Pre-Procedure Verification Process |  |
| | Marking the Procedure Site |  |
| | Performing a Time-Out |  |

National Quality Improvement Goals

Reporting Period: January 2019 - December 2019

Symbol Key

-  This organization achieved the best possible results
-  This organization's performance is above the target range/value.
-  This organization's performance is similar to the target range/value.
-  This organization's performance is below the target range/value.
-  Not displayed

Footnote Key

1. The Measure or Measure Set was not reported.
2. The Measure Set does not have an overall result.
3. The number of patients is not enough for comparison purposes.
4. The measure meets the Privacy Disclosure Threshold rule.
5. The organization scored above 90% but was below most other organizations.
6. The Measure results are not statistically valid.
7. The Measure results are based on a sample of patients.
8. The number of months with Measure data is below the reporting requirement.
9. The measure results are temporarily suppressed pending resubmission of updated data.
10. Test Measure: a measure being evaluated for reliability of the individual data elements or awaiting National Quality Forum Endorsement.
11. There were no eligible patients that met the denominator criteria.

Compared to other Joint Commission Accredited Organizations

| Measure Area | Explanation | Nationwide | Statewide |
|----------------------|---|--|--|
| Emergency Department | This category of evidence based measures assesses the time patients remain in the hospital Emergency Department prior to inpatient admission. |  ² |  ² |

National Quality Improvement Goals

Reporting Period: January 2019 - December 2019

Symbol Key

- This organization achieved the best possible results
- This organization's performance is above the target range/value.
- This organization's performance is similar to the target range/value.
- This organization's performance is below the target range/value.
- Not displayed

Footnote Key

1. The Measure or Measure Set was not reported.
2. The Measure Set does not have an overall result.
3. The number of patients is not enough for comparison purposes.
4. The measure meets the Privacy Disclosure Threshold rule.
5. The organization scored above 90% but was below most other organizations.
6. The Measure results are not statistically valid.
7. The Measure results are based on a sample of patients.
8. The number of months with Measure data is below the reporting requirement.
9. The measure results are temporarily suppressed pending resubmission of updated data.
10. Test Measure: a measure being evaluated for reliability of the individual data elements or awaiting National Quality Forum Endorsement.
11. There were no eligible patients that met the denominator criteria.

Compared to other Joint Commission Accredited Organizations

| Measure Area | Explanation | Nationwide | Statewide |
|----------------|--|------------|-----------|
| Perinatal Care | This category of evidenced based measures assesses the care of mothers and newborns. | 2 | 2 |

Compared to other Joint Commission Accredited Organizations

| Measure | Explanation | Compared to other Joint Commission Accredited Organizations | | | | |
|---|---|---|--------------------------|---------------|--------------------------|---------------|
| | | Hospital Results | Top 10% Scored at Least: | Average Rate: | Top 10% Scored at Least: | Average Rate: |
| Antenatal Steroids | This measure reports the overall number of mothers who were at risk of preterm delivery at 24-32 weeks gestation receiving antenatal steroids prior to delivering preterm newborns. Antenatal steroids are steroids given before birth. | 100% of 104 eligible Patients | 100% | 98% | 100% | 99% |
| Cesarean Birth | This measure reports the number of first-time moms with a full-term, single baby in a head-down position who delivered the baby by cesarean section. | 32% of 1240 eligible Patients | 12% | 25% | 13% | 26% |
| Elective Delivery | This measure reports the overall number of mothers who had elective vaginal deliveries or elective cesarean sections at equal to and greater than 37 weeks gestation to less than 39 weeks gestation. An elective delivery is the delivery of a newborn(s) when the mother was not in active labor or presented with spontaneous ruptured membranes prior to medical induction and/or cesarean section. | 1% of 178 eligible Patients | 0% | 2% | 0% | 2% |
| Exclusive Breast Milk Feeding | This measure reports the overall number of newborns who are exclusively breast milk fed during the newborns entire hospitalization. Exclusive breast milk feeding is when a newborn receives only breast milk and no other liquids or solids except for drops or syrups consisting of vitamins, minerals, or medicines. | 47% of 2952 eligible Patients | 73% | 51% | 70% | 48% |
| Unexpected Complications in Term Newborns per 1000 livebirths - Moderate Rate | The moderate rate equals the number of patients with moderate complications. | 10 3361.00 minutes 3005 eligible Patients | | | | |

The Joint Commission only reports measures endorsed by the National Quality Forum.
