Quality Check®

Accreditation Quality Report

The Joint Commission

Version: 8
Date: 11/14/2023

Welcome to the Joint Commission's Quality Report. We know how important reliable information is to you and your family when making health care decisions. This Quality Report will help you make the right decisions to meet your needs. Since 1951, the Joint Commission has been the national leader in setting standards for health care organizations. When a health care organization seeks accreditation, it demonstrates commitment to giving safe, high quality health care and to continually working to improve that care.

The Quality Report is only one way to determine whether a health care organization can meet your needs. Discuss this report with your doctor or with other professional acquaintances before making a care decision. In addition to the accreditation status of the organization, the Quality Report uses checks, pluses, and minuses in each of the following key areas to help you compare a health care organization with similar accredited organizations.

- National Patient Safety Goals - safety guidelines that target the prevention of medical errors such as surgery on the wrong side of the body and safe medication use.
- National Quality Improvement Goals - measures the care of patients with specific conditions such as heart failure or pregnancy.

Not all measures are relevant to or available for all types of health care organizations. The Joint Commission will add relevant measures of health care quality as more measures become available. Your comments are just as important to us. The content and format of the Quality Report will be updated from time to time based on changes in the health care industry and your suggestions. Please call Customer Service at 630-792-5800 or e-mail the Joint Commission at qualityreport@jointcommission.org with your comments and suggestions.

Reduce the risk of health care-associated infections.	Meeting Hand Hygiene Guidelines	✓
The organization identifies safety risks inherent in its patient population.	Identifying Individuals at Risk for Suicide	✓
Universal Protocol	Conducting a Pre-Procedure Verification Process	✓
	Marking the Procedure Site	✓
	Performing a Time-Out	✓

National Quality Improvement Goals

Reporting Period: January 2021 - December 2021

Measure Area	Explanation	Compared to other Joint Commission Accredited Organizations	
		Nationwide	Statewide
Perinatal Care	This category of evidenced based measures assesses the care of mothers and newborns.	N/D 2	N/D 2

Measure	Explanation	Compared to other Joint Commission Accredited Organizations				
		Hospital Results	Nationwide		Statewide	
			Top Performer Threshold:	Average Rate:	Top Performer Threshold:	Average Rate:
Cesarean Birth	This measure reports the number of first-time moms with a full-term, single baby in a head-down position who delivered the baby by cesarean section.	➕ ----	N/D 12	26%	25%	18%
Elective Delivery	This measure reports the overall number of mothers who had elective vaginal deliveries or elective cesarean sections at equal to and greater than 37 weeks gestation to less than 39 weeks gestation. An elective delivery is the delivery of a newborn(s) when the mother was not in active labor or presented with spontaneous ruptured membranes prior to medical induction and/or cesarean section.	⭐ 0% of 46 eligible Patients	0%	2%	0%	2%
Exclusive Breast Milk Feeding	This measure reports the overall number of newborns who are exclusively breast milk fed during the newborns entire hospitalization. Exclusive breast milk feeding is when a newborn receives only breast milk and no other liquids or solids except for drops or syrups consisting of vitamins, minerals, or medicines.	➖ 33% of 399 eligible Patients	71%	49%	71%	51%
Unexpected Complications in Term Newborns per 1000 livebirths - Severe Rate	The severe rate equals the number of patients with severe complications.	➕ 23 per 1000	5	13	5	13
