

# Accreditation Quality Report

Version: 2 Date: 2/23/2022 24800 SE Stark Street, Gresham, OR

Org ID: 9676

Welcome to the Joint Commission's Quality Report. We know how important reliable information is to you and your family when making health care decisions. This Quality Report will help you make the right decisions to meet your needs. Since 1951, the Joint Commission has been the national leader in setting standards for health care organizations. When a health care organization seeks accreditation, it demonstrates commitment to giving safe, high quality health care and to continually working to improve that care.

The Quality Report is only one way to determine whether a health care organization can meet your needs. Discuss this report with your doctor or with other professional acquaintances before making a care decision. In addition to the accreditation status of the organization, the Quality Report uses checks, pluses, and minuses in each of the following key areas to help you compare a health care organization with similar accredited organizations.

- National Patient Safety Goals safety guidelines that target the
  prevention of medical errors such as surgery on the wrong side of
  the body and safe medication use.
- National Quality Improvement Goals measures the care of patients with specific conditions such as heart failure or pregnancy.

Not all measures are relevant to or available for all types of health care organizations. The Joint Commission will add relevant measures of health care quality as more measures become available. Your comments are just as important to us. The content and format of the Quality Report will be updated from time to time based on changes in the health care industry and your suggestions. Please call Customer Service at 630-792-5800 or e-mail the Joint Commission at qualityreport@jointcommission.org with your comments and suggestions.

24800 SE Stark Street, Gresham, OR Org ID: 9676

The Joint Commission only reports measures endorsed by the National Quality Forum.

### Symbol Key 1

- This organization achieved the best possible results.
- This organization's performance is above the target range/value.
- This organization's performance is similar to the target range/value.
- This organization's performance is below the target range/value.
- This Measure is not applicable for this organization.
- Not displayed

#### **Footnote Key**

- The Measure or Measure Set was not reported.
- The Measure Set does not have an overall result.
- The number of patients is not enough for comparison purposes.
- The measure meets the Privacy Disclosure Threshold rule.
- 5. The organization scored above 90% but was below most other organizations.
- 6. The Measure results are not statistically valid.
- 7. The Measure results are based on a sample of patients.
- 8. The number of months with Measure data is below the reporting requirement.
- The measure results are temporarily suppressed pending resubmission of updated data.
- Test Measure: a measure being evaluated for reliability of the individual data elements or awaiting National Quality Forum Endorsement.
- 11. There were no eligible patients that met the denominator criteria.

# **National Quality Improvement Goals**

### Reporting Period: April 2020 - March 2021

Measure Area Explanation Nationwide Statewide

Perinatal Care This category of evidenced based measures assesses the care of mothers and newborns.

|   |   | Соі                                | mpared to o      | other Joint<br>ed Organiz |                  | on    |
|---|---|------------------------------------|------------------|---------------------------|------------------|-------|
|   |   |                                    | Nationwide       | eu Organiz                |                  | ewide |
| Measure   | Explanation   | Hospital                           |                  | Average                   | Top 10%          |       |
|   |   | Results                            | Scored at Least: | Rate:                     | Scored at Least: | Rate: |
| Cesarean Birth  | This measure reports the number of first-time moms with a full-term, single baby in a head-down position who delivered the baby by cesarean section.  | 32% of<br>107 eligible<br>Patients | 16%              | 25%                       | 18%              | 24%   |
| Elective Delivery   | This measure reports the overall number of mothers who had elective vaginal deliveries or elective cesarean sections at equal to and greater than 37 weeks gestation to less than 39 weeks gestation. An elective delivery is the delivery of a newborn(s) when the mother was not in active labor or presented with spontaneous ruptured membranes prior to medical induction and/or cesarean section. | 0% of<br>17 eligible<br>Patients   | 0%               | 2%                        | 0%               | 2%    |
| Exclusive Breast Milk Feeding   | This measure reports the overall number of newborns who are exclusively breast milk fed during the newborns entire hospitalization.  Exclusive breast milk feeding is when a newborn receives only breast milk and no other liquids or solids except for drops or syrups consisting of vitamins, minerals, or medicines.  | 80% of<br>151 eligible<br>Patlents | 71%              | 50%                       | 91%              | 79%   |
| Unexpected Complications in<br>Term Newborns per 1000<br>livebirths - Moderate Rate | The moderate rate equals the number of patients with moderate complications.  | 477% of 628 eligible Patients      | 212%             | 1780%                     | 300%             | 1560% |
| Unexpected Complications in<br>Term Newborns per 1000<br>livebirths - Overall Rate  | This measure looks at the number of full-term single babies with a normal birth weight and with no preexisting conditions, these are babies that are expected to do well and routinely go home with the mother.   | 2070% of 628 eligible Patients     | 1508%            | 3084%                     | 1824%            | 2764% |
